

North East Family Directory

As a small practice, supporting small businesses who are passionate about what they do is important to me.

I would love you to be part of it.

Janine

Expanding the directory

After working with families for 20 years, I am a trusted source of information from pregnancy through to teenagers, The directory was created to provide parents with links to the best classes, services, products and practitioners across the North East. Now it is time to grow the directory to include more small businesses and to reach more parents.

I work alongside businesses who are experienced, professional, recommended and who fit in well with the supportive ethos of my practice.

How it works

- the directory lives on my website - janine-smith.com
- directory posts are shared on Instagram and Facebook
- a link to the directory is included on my emails and on my newsletter
- only £10 per month

The directory sponsors the Mother Cuppa Parent Group, which supports the NE Homeless Hub
